

## **Emergency Dental Outreach Clinic (EDOC)**

**250-613-7246**

### **Safety Plan for Client Management**

- 1.** There will be no drop-ins during the time of COVID-19.
- 2.** We will see up to 10 pre-booked patients on the nights that the Clinic is open.
- 3.** Patients will be pre-screened for COVID over the phone when booking and again upon arrival.
- 4.** The back door of the PGNFC will remain locked and patients will text or call me to let them in. Patients only will be admitted to the Dental Clinic.
- 5.** Patients will be instructed to use hand sanitizer on arrival.
- 6.** There will be 4 plastic chairs set up in the hallway with proper social distancing markers that will be disinfected between patients. Having a maximum of 4 patients waiting at one time will allow for flow of dental treatment.
- 7.** While the Dentist is working on one patient, the Coordinator will fill out the chart for the next person. The patients will not handle the chart.
- 8.** Sterilization and disinfecting procedures will occur in the clinic as per our Professional College's guidelines.
- 9.** The Employees and Dental Clinic volunteers will wear appropriate PPE as per our Professional Colleges, BCCDC, and Worksafe guidelines.
- 10.** Patients will be escorted to the exit after treatment and the back door will remain closed at all times.
